

NWPA Workshop - Make and Take Light Painting Tools

Thursday 11th June 2026, 1.00pm - 4.00pm at Canolfan Tregarth

Ffordd Tanrhiw Tanrhiw Road TREGARTH LL57 4AW

Join us in this workshop. The session will start with an introduction to light painting and how it works.

Following that Ian Greenwood from Llyn Peninsula Light Painters will be showing and making some basic Light Painting tools, which you will then make for yourselves, each tool will be unique to the individual, and theirs to take away after the workshop.

Then the fun begins, we will create some light painting using the tools you've made. No two tools will be the same. Once you've learnt and understand the basics of light painting you can be as creative as you like.

All items and materials needed for making the tools will be made available on the day.

Should you require any refreshments during the day, please bring them with you.

Equipment required apart from your camera:

Standard Kit Lens 24-120mm or Prime lens around 50mm.

Fully Charged Battery.

A Tripod is Essential.

Camera trigger, cable or remote.

Torch/Head torch.

A piece of black card approx 6 x 6 inches.

Camera settings will start at: F8, ISO 100 and the exposure will be Bulb mode.

Attendance will be limited to the first twenty applicants – please email: president@nwpa.co.uk

The fee for the workshop will be £25 p/p payable in advance (details for payment will be provided to the successful applicants)
