

North Wales Photographic Association
for members of Clubs affiliated to NWP
PORTRAIT MASTER CLASS
by Robert and Sharon Prenton Jones
Venue: Craig-Y-Don Community Centre, Llandudno
11am - 4pm on Wednesday 28th May 2025

BOOKING INFORMATION:
To book on this workshop, please follow the instructions on the link below
which will open at 6.30pm on Wednesday 23rd April 2025:
<https://www.prentonjonesphotography.co.uk/workshops/nwpa-workshop/>

Further to our previous communication about the NWP Portrait Photography Masterclass on 28th May 2025, we are now in a position to let you know how to book onto this workshop. To book a place, please log-on to the following website address:

<https://www.prentonjonesphotography.co.uk/workshops/nwpa-workshop/>

The booking facility will open at 6.30pm on Wednesday 23rd April 2025. At this time the booking form will become 'live' and will enable up to 12 people to book onto the workshop. Once 12 places have been filled, the booking facility will automatically close and will not accept any further bookings. The cost per person is £45 payable in advance at the time of booking, and no refunds are possible. However, if a delegate has booked a place and find that they cannot attend, they can sell their place to another NWP member.

As mentioned previously, this workshop is a fundraising event, and all proceeds will go to the NWP. All involved are offering their services for free. This includes the organisers (Sharon and Rob Prenton Jones), the models, and our webpage designer.

The workshop will begin with a "Mastering Portrait Lighting" demonstration of how to achieve soft, painterly lighting effects using studio lights and modifiers. Delegates will be divided into two groups of six photographers, giving them the opportunity to take photos of two character models dressed in Elizabethan costumes. Each model will have a costume and props change allowing each delegate the opportunity to shoot four different character portraits.

There will then be a presentation on "Post-Processing for Portraiture" with a live demonstration of how to process your images. Please note, this post processing presentation will use Adobe Photoshop 2025 and Adobe Camera Raw to demonstrate the post-processing techniques. Although similar effects can be obtained using other software packages, we will not be using any other software on the day. Following the workshop, delegates will be supplied with a detailed summary of all the techniques demonstrated on the day.
